**End Application:**

In support of the f-15 acft

**Product Name:**

Test set, armament circuits preload

**Special Features:**

Provides on a single station basis, the capability to perform preload electrical and stray voltage checks

**Reference Data And Literature:**

Serd no. 8656s

**General Description:**

C/o transit case; voltage detectors; cable assemblies; circuit selectors; adaptor plugs; 34.500 in l by 16.800 in h by 22.500 in d; 100.0 lbs

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
