End Application:

F110-ge-129 engine; 4920-00-543-7930 tester

Product Name:

Adapter set, fuel pressurizing unit

Special Features:

Similar to g02 except that the p1r hose assemblies have been added for the vsv with outer duct removed

Functional Description:

Provides an interface between the special fittings on the engine and the tester to checkout actuators in the variable vane system, stages 1, 2 and 3

Reference Data And Literature:

Serd 1913

Supplementary Features:

C/o 4 hose assemblies and 2 adapters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
