End Application:

F-16 a/b/c/d acft

Special Features:

C/o operator console and two test chambers; operator console c/o four individual racks; test bench is appx 72 in. L, 18 in. Deep, mounted in front of operator's console

Functional Description:

Used to perform tests on proof pressure and leakage tests on bleed air components

Reference Data And Literature:

Serd no. 41252

Supplementary Features:

Company item name-test stand, pneumatic medium pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
