Aircraft Pneumatic System Components Test Station - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-337-3088

End Application:
F-16 a/b/c/d acft
Special Features:
C/o operator console and two test chambers; operator console c/o four individual racks; test bench is appx 72 in. L, 18 in. Deep, mounted
in front of operator's console
Functional Description:
Used to perform tests on proof pressure and leakage tests on bleed air components
Reference Data And Literature:
Serd no. 41252
Supplementary Features:
Company item name-test stand, pneumatic medium pressure
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23800
