End Application:

An/alq-161; b-1b res/ecms acft

Special Features:

O/a dim: 54.000 in. H., 30.000 in. Lg., 27.000 in. W.; a complete portable system that incorporates heat exchangers, heaters, pumps, motors w/flow, pressure and temperature indicators capable of measuring psig, psid, flow rate and temperature of coolant liquid

Functional Description:

Used to test/troubleshoot liquid cooled Irus for proper fluid flow, pressure and temperature

Reference Data And Literature:

SERD-NO-.76-X01C

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
