End Application:

An/alq-161; b-1b rfs/ecms acft

Special Features:

Test rack houses four (4) 0 to 5 psid analog differential pressure gauges of form 1 percent accuracy w/provides for measuring low range pressure drops above 5 psid, a higher range, 0 to 30 psid, form 1 percent, 6 in. Diameter differential pressure gauge located on the analog test cart is used; o/a wt: 180 lbs; portable per four (4) 3.000 in. Castors

Functional Description:

Used to test cold plate flow rates and pressure drops

Reference Data And Literature:

SERD-NO-.76-X03C

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
