End Application:

An/alq-161; b-1b rfs/ecms acft

Special Features:

O/a dim: 72.000 in. H., 30.000 in. Lg., 27.000 in. W.; a complete portable system that incorporates heat exchangers, heaters, pumps, motors with flow, pressure and temperature indicators capable of measuring psig, psid, flow rate and temperature of the coolant fluid

Functional Description:

Used to test/troubleshoot liquid cooled Iru's for proper fluid flow, pressure and temperature

Reference Data And Literature:

Serd no. 76x-02c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
