End Application:

F-15e

Test Item Connection Method:

Connector

Special Features:

The item mounts on 4920013249041 interface panel, which is the electrical interconnect; size 30.000 inch width by 26.000 inch depth by 12.000 inch height; weighs 32 lbs max

Functional Description:

Aitem provides electrical and mechanical interface to 4920013249041 for the modules to be tested; provides wiring and circuitry as required for electrically interfacing, testing, & fault isolating

Reference Data And Literature:

Serd no. 8751

Supplementary Features:

Company name-test package rmr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
