**End Application:**

Low altitude navigation and targeting infrared system

**Nominal length:**

22.000 inches

**Nominal width:**

4.870 inches

**Nominal height:**

22.000 inches

**Special Features:**

Aluminum 6061-t651 and steel; heat treat r/c 50-55

**Functional Description:**

Used to hold inner/outer roll assembly 717521055 while the taf assembly is installed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A505c0
