End Application:

Low altitude navigation and targeting infrared system

Nominal length:

11.300 inches

Nominal width:

4.250 inches

Nominal height:

8.210 inches

Special Features:

Aluminum 6061-t651; black anodize aluminum details

Functional Description:

Used to hold moveable mount and wedge in position during bonding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
