**End Application:**

Low altitude navigation and targeting infrared system

**Nominal length:**

11.300 inches

**Nominal width:**

4.250 inches

**Nominal height:**

8.210 inches

**Special Features:**

Aluminum 6061-t651; black anodize aluminum details

**Functional Description:**

Used to hold moveable mount and wedge in position during bonding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A505c0
