**End Application:**

C-17 aircraft age.

**Special Features:**

Sweep rate and sweep angle in low and high speed, park operation, blade release mechanism function, blade pressure range, wiping quality, dry glass operation

**Functional Description:**

Used to test performance, calibrate components and troubleshoot and isolate faults in the windshield wiper subsystem; shall interface electrically with the wiper motor gearcase connector while the wiper arms and blades shall interface mechanically in same way as on aircraft

**Reference Data And Literature:**

Serd no. 410030

**General Description:**

60.000 in. L, 33.000 in. W, 82.000 in. H; 150 lbs; steel frame; electrical power requirements 115v, 1 phase 60 hz, output to lru 24-32 vdc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
