End Application:

In support of b-1b acft

Special Features:

Used in conjunction with extender card 99d30g; digital multimeter 99b44g; cable assembly, lvdt simulator in support of b-1b acft

Functional Description:

Used to simulate linear variable differential transducers for calibration of the mother board no. 2 lvdt baby buffers

Reference Data And Literature:

T.O. 33a2-2-74-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
