Overall Length:

10.060 inches

Overall Height:

2.620 inches

Overall Width:

6.060 inches

End Application:

Auto wps electrical system

Key Type:

Push button

Special Features:

Provides test operator's interface with ate. Terminal shall be u/w tester both on flightline and at intermediate maintenance shop. Terminal shall display information to operator and allow operator to input commands to tester; power communications: input power via cables shall be 28 vdc porm 5 percent

Unpackaged Unit Weight:

6.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A509m0
