**End Application:**

B-1b das tps

**Test Item Connection Method:**

Connector

**Special Features:**

Nc/o hex 4-40 standoff, harness tie bracket, lower panel bracket, nut, guide holder, guide bracket, guide assembly, tapping screw, lower front plate, panel mtg bracket, lock washer, fillister screw, flat screw, handle ferrule, handle, sleeving, flat washer, lock nut, washer, screw, nameplate, marker strip, enclosure assembly, terminal strip, connector, intfc connector, a1 card assembly, stud terminal, marker label, locking clip contact, lug terminal, shielded wire, terminal, conn mtg bracket, hex 10-32 standoff

**Functional Description:**

Adapter interfaces datsa test station to provide uut stimuli

**Reference Data And Literature:**

Serd 99s-07c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A537k0
