End Application:

B-1b das tps

Test Item Connection Method:

Connector

Special Features:

Nc/o hex 4-40 standoff, harness tie bracket, lower panel bracket, nut, guide holder, guide bracket, guide assembly, tapping screw, lower front plate, panel mtg bracket, lock washer, fillister screw, flat screw, handle ferrule, handle, sleeving, flat washer, lock nut, washer, screw, nameplate, marker strip, enclosure assembly, terminal strip, connector, intfc connector, a1 card assembly, stud terminal, marker label, locking clip contact, lug terminal, shielded wire, terminal, conn mtg bracket, hex 10-32 standoff

Functional Description:

Adapter interfaces datsa test station to provide uut stimuli

Reference Data And Literature:

Serd 99s-07c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
