End Application:
B-1b das tps
Test Item Connection Method:
Connector
Special Features:
Nc/o hex 4-40 standoff, harness tie bracket, lower panel bracket, nut, guide holder, guide bracket, guide assembly, tapping screw, lower front
plate, panel mtg bracket, lock washer, fillister screw, flat screw, handle ferrule, handle, sleeving, flat washer, lock nut, washer, screw,
nameplate, marker strip, enclosure assembly, terminal strip, connector, intfc connector, a1 card assembly, stud terminal, marker label,
locking clip contact, lug terminal, shielded wire, terminal, conn mtg bracket, hex 10-32 standoff
Functional Description:
Adapter interfaces datsa test station to provide uut stimuli
Reference Data And Literature:
Serd 99s-07c
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
