**End Application:**

F100-pw-100/200/220

**Nominallength:**

2.688 inches

**Nominaldiameter:**

2.000 inches

**Special Features:**

Four of these locating plugs are positioned in holes on the balance plate on a controlled diameter to locate a snap diameter on a 13th stage spacer compressor. These pluges are used with pwa55175 support on balance plate

**Functional Description:**

Plugs used to balance the 13th stage compressor rotor spacer using pwa51677 balance plate and pwa55175 supports

**Reference Data And Literature:**

Serd 6395

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A505c0
