End Application:

Aircraft model f/a-18

Specific Usage Design:

Cooling air directed from airsims, thru cooling air hose assembly, to holding fixture and provided to the dmc by placing the dmc into holding fixture

Nominal length:

21.000 inches

Nominal width:

8.000 inches

Nominal height:

13.500 inches

Functional Description:

Hose adapter provides forced air to cool uut

Unpackaged Unit Weight:

10.000 pounds

Reference Data And Literature:

Ecp295

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
