End Application:

Milstar

Test Item Connection Method:

Connector

Special Features:

Dimension height 21.300 inch (54.1 cm); width 14.700 inch (37.3 cm); depth 7.000 inch (17.8 cm); weight 32 lb (14.5 kg); temperature limits = operating 50 to 140 degrees f (10 to 40 degrees c); nonoperating -40 to 167 degrees f (-40 to 75 degrees c); caution

Functional Description:

Adapter is part of the calibration test program set; interface between the portable automatic test equipment calibrator & the modular automatic test equipment station interface connector assembly when performing mate station calibration procedures; mechanical & electrical containing passive electronic devices; equipped with an i.D. Resistor to be measured by the mate station for calibration adapter recognition; contains precision resistors for loading & terminating signals; 2 bow handles used to install/remove/carry
