End Application:

C-17 aircraft age.

Nominallength:

10.000 inches

Nominalheight:

6.940 inches

Functional Classification:

Gg-7.4

Special Features:

Aluminum

Functional Description:

Used to provide support for the densitometer during induction solder melt and a base pulling stand for disassembly

Unpackaged Unit Weight:

15.000 pounds

Reference Data And Literature:

Serd no. 460174

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
