End Application:

F-16a/b mid life update, epaf

Test Item Connection Method:

Connector

Functional Classification:

Aa-12.11

Special Features:

115.0 vac, 3-phase, 400.0 hz; 45.0 lbs, 20.000 in. L, 18.500 in. D, 18.500 in. H

Functional Description:

Used to test the transmitted/received radio frequency energy to the fire control radar system

Reference Data And Literature:

Serd 74516

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
