End Application:

4920-01-327-5994

Nominal length:

2.750 inches

Nominal width:

1.380 inches

Nominal height:

3.880 inches

Special Features:

Block, clamp forward; steel sae 1010-1030

Functional Description:

Used to locate, drill and ream forward and aft lug bushing holes after welding, repair and machining

Reference Data And Literature:

Ge drawing no. 3c4107

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
