End Application:

4920-01-327-5994

Nominallength:

1.310 inches

Nominaldiameter:

0.750 inches

Special Features:

Stop, forward; steel, sae 4140-4142 rockwell hardness 38-42

Functional Description:

Used to locate, drill and ream forward and aft lug busing holes after welding, repair and machining

Reference Data And Literature:

Ge drawing no. 3c4107

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
