**End Application:**

C-17 aircraft age

**Nominal length:**

56.000 inches

**Nominal width:**

6.000 inches

**Nominal height:**

6.000 inches

**Special Features:**

Steel weldment with a hydraulic actuator; company item name-fixture, door locking actuator

**Functional Description:**

Used to hold the door locking actuator while load testing

**Reference Data And Literature:**

Serd no. 450306

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
