End Application:
F117-pw-100 aircraft engine
Nominalheight:
18.000 inches
Nominaldiameter:
32.000 inches
Functional Description:
Required during assembly of the high pressure compressor module
Reference Data And Literature:
Serd no. 0617
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
