**End Application:**

F117-pw-100 aircraft engine

**Special Features:**

Brazed and welded construction

**Functional Description:**

Used to load test engine assembly in various positions at the turbine nozzle

**Reference Data And Literature:**

Pw drawing no. 80474

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
