**End Application:**

F117-pw-100 aircraft engine

**Nominaldiameter:**

48.000 inches

**Special Features:**

Aluminum, 6061-t6; 0.500 in. Thk; three lift holes equally spaced, 0.500-13 tapped thru

**Functional Description:**

Used in the assembly and disassembly of the differential case to build stand adapter

**Reference Data And Literature:**

Pw drawing no. 80424

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
