End Application:

F117-pw-100 aircraft engine

Nominaldiameter:

48.000 inches

Special Features:

Aluminum, 6061-t6; 0.500 in. Thk; three lift holes equally spaced, 0.500-13 tapped thru

Functional Description:

Used in the assembly and disassembly of the differential case to build stand adapter

Reference Data And Literature:

Pw drawing no. 80424

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
