**End Application:**

F117-pw-100 aircraft engine

**Nominaldiameter:**

46.000 inches

**Special Features:**

Ring, lift and turn; aisi 8620, hot rolled; welded construction

**Functional Description:**

Used to lift and load test compressor intermediate case in various positions

**Reference Data And Literature:**

Pw drawing no. 80521

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
