End Application:

F117-pw-100 aircraft engine

Nominaldiameter:

46.000 inches

Special Features:

Ring, lift and turn; aisi 8620, hot rolled; welded construction

Functional Description:

Used to lift and load test compressor intermediate case in various positions

Reference Data And Literature:

Pw drawing no. 80521

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
