Usage Design:

Aircraft hydraulic system

Installation Design:

Portable

Power Source:

Electric motor

Accumulator:

Included

Pressure Rating:

20.0 pounds per square inch

Engine Driven Hydraulic Pump Testing Design Feature:

Included

Pressure Manifold Subcircuit:

Included

Filtering System:

Included

Pressure/suction Hose:

Not included

Special Features:

F-16 a/b/c/d

Functional Description:

To provide accurate pressure sources, adjust the pressure transducers, calibrate the flow orifices, & perform functional checks in conjunction with serd no. 47044 graphic recorder, serd 47045 portable manometer, serd 47046 ad/dc amplifier, vertical tube (p/n a338a)

Reference Data And Literature:

Serd 47039; tech order 33d2-10-80-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-e
