**End Application:**

F117-pw-100 aircraft engine

**Nominal length:**

80.000 inches

**Nominal width:**

15.000 inches

**Nominal height:**

68.000 inches

**Special Features:**

Handling-lpt and tec group

**Functional Description:**

Used to handle low pressure turbine and turbine exhaust case as a group during engine assembly/disassembly

**Reference Data And Literature:**

Pw serd no.0368

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
