End Application:

An/gsm-358

Product Name:

Enhanced interface connector assembly

Special Features:

Gplug in switching modules for different ica configurations; test module adapter that interfaces with the test station host comput and the ica via the ieec-488 interface bus; includes safety interlock

Functional Description:

The interface connector assembly (ica) is a modular, rack mounted unit that provides the electrical and mechanical interface between the test station resources and the unit under test

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
