End Application:

F117-pw-100 aircraft engine

Nominalheight:

1.500 inches

Nominaldiameter:

7.000 inches

Special Features:

Steel; welded construction

Functional Description:

Provides counter torque for no. 5 bearing seal assembly

Reference Data And Literature:

Drawing no. Pwa80494

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
