End Application:

F117-pw-100 aircraft engine

Nominal length:

20.500 inches

Nominal width:

5.000 inches

Nominal height:

0.600 inches

Special Features:

Steel: welded construction

Functional Description:

Used to dead load test gearbox group

Reference Data And Literature:

Drawing no. Pwa80575

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
