End Application:

F117-pw-100

Nominal length:

15.000 inches

Nominal width:

7.000 inches

Nominal height:

5.200 inches

Functional Description:

Secures and supports the second stage vane cluster during airflow testing

Reference Data And Literature:

Pw serd no.0296

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
