End Application:

F117-pw-100

Nominalwidth:

0.800 inches

Nominaldiameter:

35.900 inches

Special Features:

Used during the balancing of the high pressure turbine assembly

Functional Description:

Used to dead load test rear balance fixture

Reference Data And Literature:

Serd no. 1725

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
