End Application:

F117-pw-100

Special Features:

Stainless steel, 9.0in dia, and 3.8in high

Functional Description:

Required to support the first stage turbine rotor assembly during orbital riveting of the turbine blades

Reference Data And Literature:

Pw serd no. 1589

General Description:

Adapter, machine-hp turbine, 1st stage disk,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
