End Application:

F100-pw-229

Nominallength:

34.100 inches

Functional Description:

Supports the 3rd stage compressor stator during stress relief heat treatment 1150 degrees f for 2 hours to prevent part distortion

Reference Data And Literature:

Serd no. 7079

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
