End Application:
F100-pw-229
Nominallength:
34.100 inches
Functional Description:
Supports the 3rd stage compressor stator during stress relief heat treatment 1150 degrees f for 2 hours to prevent part distortion
Reference Data And Literature:
Serd no. 7079
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A505c0
