End Application:

B-2 aircraft (tssp)

Product Name:

Tube, alignment tool

Special Features:

Used as an indicator, joins two pieces of metal plate

Functional Description:

Used as an indicator, joins two pieces of metal plate

General Description:

Material per specification qq-a-200/8 6061-t6511 aluminum tubing. Dimensions are 2.00 diameter; 0.375 wall thickness; length 14.320 inches

Fsc Application Data:

5120-01-272-0077

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
