**End Application:**

C-130 aircraft ads right hand rail

**Product Name:**

Tester, latch

**Special Features:**

BATT-ER-Y;A-RACH

**Functional Description:**

Zused to provide maintenance and operations personnel more reliability anaccuracy when testing the p/n 14711-200 rh detent latch assembly.

Of the a/a32h-4a cargo handling system; measures a force of 500 to 4000 lbs; for on aircraft calibration

**Reference Data And Literature:**

Serd 15-92-0010; tech order=operation & maintenance instruction w/ipb-electronic latch tester

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
