Overall Length:

12.800 inches

Overall Height:

7.300 inches

Overall Width:

13.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

End Application:

Test set, avionics asn-161

Test Item Connection Method:

Connector

Functional Description:

Provides power and interconnection between the computer chassis assembly and the unit under test (uut)

Material:

Plastic case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
