Width:

24.000 inches

Length:

24.000 inches

End Application:

C17 flight control system components

Inclosure Feature:

Single item w/housing

Test Type For Which Designed:

Electrical integrity testing, flight control system

Functional Description:

Provide necessary voltage and monitoring for electrical integrity testing flight control system components following repair

Height:

20.000 inches

Reference Data And Literature:

Serd 140572

Supplementary Features:

Associated cables and plastic overlays for various testing are serded seperately and will be commercially furnished

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
