Aircraft Engine Maintenance Machining Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-01-393-2434

End Application:
C-17 aircraft engine f117-pw-100
Nominalheight:
1.000 inches
Nominaldiameter:
20.500 inches
Functional Description:
Used to hold two spc inlet guide vane shroud segments during maching ofthe rubber rub strip after molding
Reference Data And Literature:
Serd no 1285
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A505c0
