Major Components:

Switching, electronic circuits, test points, indicators

End Application:

Ac-130u gunship

Component Quantity:

1

Special Features:

Nomenclature "test fixture, gyro assembly; characteristics length 7.000inch; width 5.000 inch; height 3.000 inch; weight 5.000 lbs

Functional Description:

Used to bench check gyro assemblies

Reference Data And Literature:

Serd no. 0295

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
