End Application:

F117-pw-100 aircraft engine

Nominal length:

26.900 inches

Nominal width:

13.900 inches

Nominal height:

6.600 inches

Functional Description:

Is required to measure the oil flow rate of the main gearbox fuel pump oil nozzle

Reference Data And Literature:

Serd no. 0468

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
