Overall Length:

2.500 inches

Overall Height:

2.000 inches

Overall Width:

1.500 inches

End Application:

F117-pw-100 aircraft engine

Special Features:

High pressure compressor

Functional Description:

Is required to support the rod end during removal and installation of the self-aligning spherical bearing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
