Overall Length:
2.500 inches
Overall Height:
2.000 inches
Overall Width:
1.500 inches
End Application:
F117-pw-100 aircraft engine
Special Features:
High pressure compressor
Functional Description:
Is required to support the rod end during removal and installation of the self-aligning spherical bearing
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
